## PROFESSIONAL SUMMARY

IT graduate with a Bachelor of Science in Information Technology and hands-on experience building and supporting web-based applications using React, JavaScript, and REST APIs. Strong interest in software development and data-driven solutions, with a growing focus on SQL and reporting tools. Quick to learn new technologies and systems, demonstrated by rapidly mastering POS and application workflows. Experienced in working with data accuracy, problem-solving, and logical thinking. Seeking a junior developer role where I can learn, contribute, and grow within a data- and technology-driven environment.

---
